Index of Abstracts

Bold face figures refer to abstracts, light face figures to pages.

Actinomyces in gingival calculus, **73-109.**

Actinomycosis, maxillary, **61-106.**

Allantoin, stimulation of healing by use of, **449-129.**

Alcoholism, chronic, oral complications of, **256-115.**

Alveolar atrophy, **359-114, 270-120,** use of germinative bone tissue in, **456-131.**

Antrivirous, results from use of, **65-107.**

Articulation, functional, disturbed, **181-105.**

Autopyovaccines in dental therapy, **423-123.**

Bacteriology, smears from gingival margins, **62-106,** from periodontitis, **67-107.**

Bacteriophage, staphylococcique, in mouth diseases, **69-108.**

Blood dyscrasias, dentistry in relation to, **269-120.**

Blood sedimentation curve, with phenol treatment, **433-125.**

Calcium metabolism, its regulation, **424-123.**

Calculary deposits, formation of, **71-108,** iron in, **67-109.**

Capillary research, **183-105, 185-106,** effect of salvarsan upon c. **265-118.**

Chromic acid and gingival lesions, **428-124.**

Cold and heat therapy in dental inflammations, **447-129.**

Constitutional therapy for paradentosis, **435-126.**

Diabetes and paradentosis, **273-121, 455-128, 457-131.**

Diagnosis of periodontal diseases, **274-121, 278-122.**

Diathermy for paradentosis treatment, **442-128.**

Dietary disturbances, correction of, **425-123.**

Diphtheria, primary, of the oral mucosa, **271-120.**

Elephantiasis gingivae, **263-118.**

Endocrine disorders, relation to dental disease, **350-111, 356-113.**

Epithelium gingival, histological examination of, **182-105.**

Gingival diseases, manifestations of, **259-116,** Pfannenstil formula in, **445-128.**

Gingival keloids of the maxillae, **272-120.**

Gingival nerves, condition in paradentosis, **184-105.**

Gingivitis, etiology of, **351-112,** treatment of, **362-115,** with vitamin C, **454-131.**

Glossodynia, **260-117, 262-118.**

Histobacteriological investigations of paradentitic jaws, **70-108.**

Histopathology of mucous membrane lesions, **179-104.**

Hormones, use of, for teeth, hair, and nails, **437-126.**

Lesions, mouth, resulting from vitamin deficiencies, **358-113.**

Leukemia, manifestations of, **267-119.**

Lymphorgranuloma, **261-117.**

Mycotic infecton caused by leptothrix, **68-108.**

Oropharyngitis, membranous, **66-107.**

Ozone therapy for buccal infections, **436-126.**

Paradentosis, experimental, **69-110,** basal metabolism in, **345-110, 266-119,** biologic relation of, **346-110,** clinical forms of, **264-118,** etiology of, **347-110, 348-110, 349-110, 353-112, 355-113, 357-113, 361-115, 258-116, 268-120, 421-122,** migrating form, **360-115,** relation to gout, **257-116, 275-121,** survey of, **277-122,** treatment, of **439-127.**

Periodontal disease, conservative methods of treatment, **452-130.**

Periodontal membrance, structure, function, pathology of, **180-104.**

Periodontia, practice, based on fact, **422-123,** indications for extractions in, **440-127,** and the common weal, **441-127.**

Periodontitis treated with silver salts, **451-130.**

Periodontoclasia, evaluation of treatment in, **458-131,** and gingivitis, medical aspects, **434-126.**

Pyorrhea alveolaris, etiology, **352-112, 354-112,** non-surgical pack method, **432-125,** physical therapy, **453-130,** surgical eradication of, **430-125,** treatment of, **276-121, 427-124,** what the patient should know about it, **443-128.**

Saliva, study of, **68-109.**

Sanitorium treatment, and cure of paradentosis, **431-125.**

Spirochetal organisms in mouth infections, **72-109.**

Splints, fixed or removable, **448-129, 450-130, 459-132.**

Stomatitis, ulcerative, treatment of, with Vit. A. **426-124,** acridine dyes, **438-126,** antiseptics, **446-128.**

Streptococci, oral **63-106.**

Vascular changes in paradentium, **363-115.**

Vitamin research, **429-124.**

Yeasts and yeast-like fungi, **64-107.**
